SUMMARY

Data-driven Python Developer and Analyst with experience in FinTech and SaaS environments. Skilled in designing API-integrated dashboards, KPI-driven reporting, RNTS-based systems, and CMS-compliant data models. Adept at translating raw data into actionable insights that improve operational efficiency and drive long-term support services (LTSS). Passionate about enabling strategic decision-making through data analysis, automation, and reporting.

SKILLS

- Python
- SQL
- ETL
- Data Analysis and Governance
- Web Scraping
- CMS Template Modeling
- Communication

- Power BI
- EDA
- Business Intelligence
- Agile Methodologies
- Generative AI
- QSM Standards
- Bilingual

- Statistical Analysis
- Microsoft Office Suite
- Machine Learning
- Deep Learning
- KPI Dashboards
- RNTS

WORK EXPERIENCE

BlueStock Fintech • Intern　　　　　　　　　　　　　　　　　　　　　　**(Jan 2025) - (Feb 2025)**
- Developed and optimized RESTful APIs within an RNTS architecture, improving response time by 15%.
- Enhanced SQL database performance by 25% using indexed queries and compliance-aligned structures.
- Collaborated across cross-functional teams to launch data-driven features aligned with CMS Modern 2025 principles.

Unthinkable Solutions LLP, Gurgaon • Junior Associate　　　　　　　　　　**(08/2022) - (09/2023)**
- Designed scalable backend systems using Python and Flask, supporting CMS-aligned LTSS business workflows.
- Improved database efficiency by 35% through query optimization and report automation using KPIs.
- Delivered RESTful services integrated with business intelligence pipelines, contributing to 20% faster insights.

PROJECTS

Grocery Store
- Engineered and maintained data and optimized data flow for efficiency and accuracy.
- Ensured data integrity for critical business operations.
- Implemented GUI modules for improved usability.

Extracurricular Activity
Data Analytics & Visualization • Accenture Forage (Simulation)

- Advised a hypothetical social media client using CMS Modern 2025-style data analysis.
- Cleaned and analyzed 7 datasets to identify content trends.
- Built a PowerPoint and video presentation to communicate insights to internal stakeholders.

EDUCATION

Guru Jambheshwar University of Science & Technology • Bachelor of Technology in AI & ML　　　**(2026)**
Government Polytechnic Sonipat, Sonipat • 2-year Polytechnic Diploma (CSE)　　　　　　　　**(2022)**
Arya Senior Secondary Shiksha Sadan Aata • Intermediate (PCM)　　　　　　　　　　　　**(2020)**

CERTIFICATIONS

Developer Virtual Experience • Accenture (Forage)
Python for Data Science • Udemy
Accenture North America Data Analytics and Visualization Completion Certificate• Accenture (Forage)
